

Game Card Vending Machine Manual

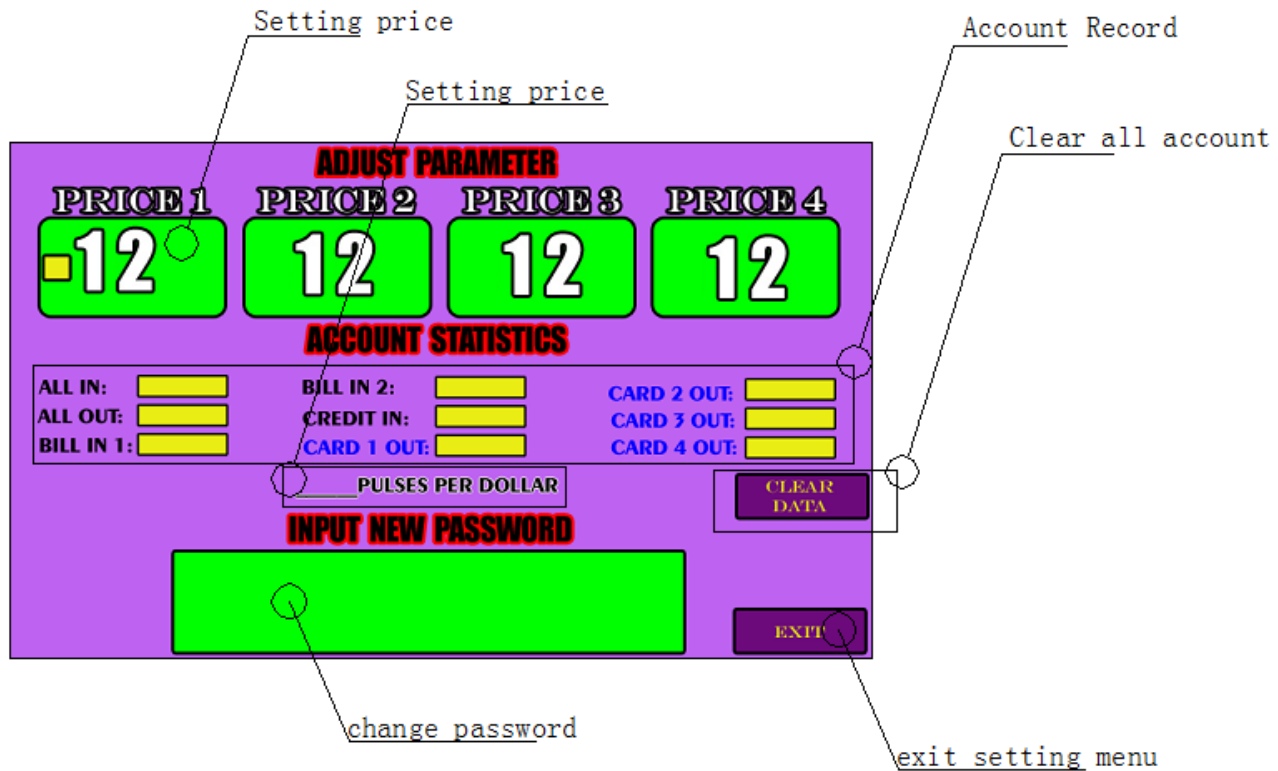

A. How to use;

1. Insert coin or bill
2. Press below corresponding value button
3. Take the dispensed card

B. Parameter settings;

Press enter button for settings: Change parameter by up, down, left and right button. Exit after marking all changes.

C. Easy trouble shooting:

1. Nothing on the display screen.

- Check if cables from main board to scree is no problem.
- Check if main board is working, if no problem, replace the display.

2. Coin acceptor or bill acceptor not working.

- Check cables

- Check if coin acceptor or bill acceptor indicator light is on
- Replace bill acceptor or coin acceptor

3. Money was inserted but no card came out.

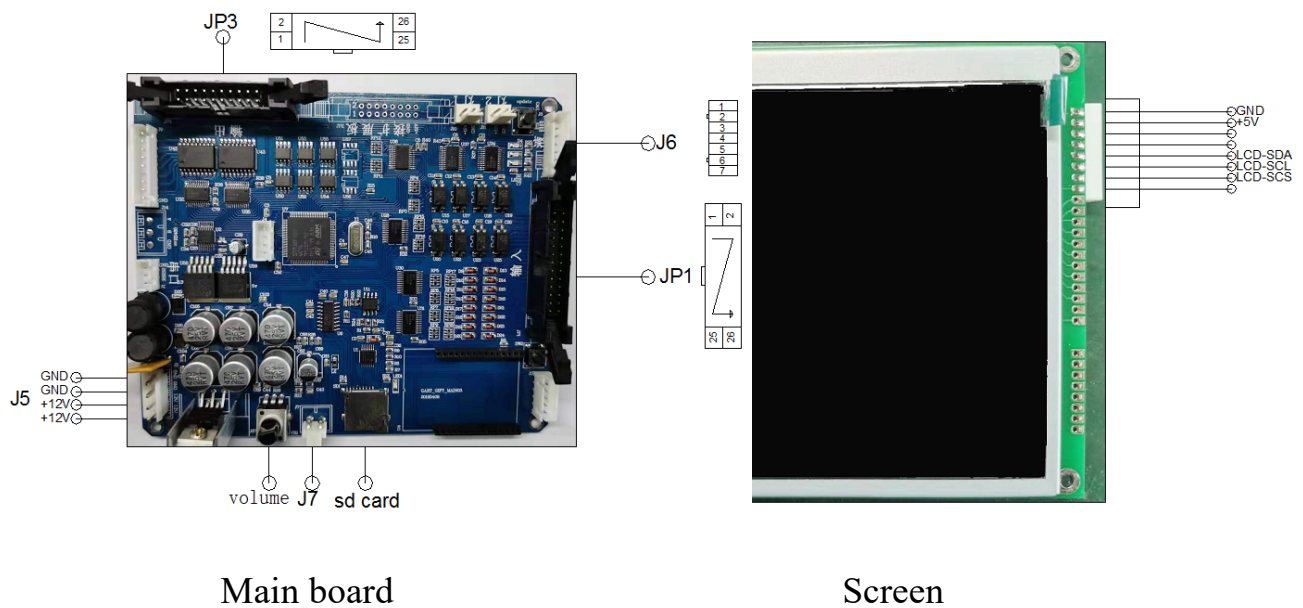

Check button first to see if it's working

Check card dispenser

4. Continuous Beeping.

Check the levels of the cards in the card dispensers. Add cards to card dispenser.
