Thank you for purchasing **Raccoon Rampage GMP**. We hope you enjoy the product.

This manual contains valuable information about how to operate and maintain your game machine properly and safely. It is intended for the owner and/or personnel in charge of product operation. Carefully read and understand the instructions.

If you need any help during installation and setup please utilize this manual and troubleshooting guide. If the product fails to function properly, *non-technical personnel should under no circumstance attempt to service the machine*. Contact your distributor or manufacturer for help.

Before use, please read **IMPORTANT SAFETY INSTRUCTIONS**.

IMPORTANT SAFETY INSTRUCTIONS

To ensure the safe usage of this product, carefully read and understand these instructions before operating your game.

Save these instructions for future reference.

Use this product only as described in this manual. Other uses not recommended may cause fire, electric shock or personal injury. Unplug the game from the outlet when not in use, when moving from one location to another, and before cleaning/servicing.

Explanations which require special attention are indicated by signs of warning. Depending on the potential hazardous degree, the terms: **NOTE**, **NOTICE**, and **WARNING** are used.

NOTE: A NOTE indicates useful hints or information about product usage.

NOTICE: A NOTICE indicates potential damage to product and how to avoid the problem.

WARNING: A WARNING indicates a potential for product damage or serious personal injury.

It is important to understand the meaning of the following HAZARD SIGNS before continuing:

High Voltage and Shock Hazard:

High voltage can cause electric shock.
Turn off/unplug power before servicing.

High Temperature Hazard:

This part may cause scalding.
Do not touch. Surface may be hot.

No Touching Hazard:

This part may be hot or can cause electric shock.
Do not touch.

Use the following safety guidelines to help ensure your own personal safety and to help protect your equipment and surrounding environment from potential damage.

⚠️ This product is an indoor game machine. Do not install outdoors.

Avoid installing in the following places to prevent fire, electric shock, injury and/or machine malfunctioning:

- Places subject to rain/moisture, or places subject to high humidity.
- Places subject to direct sunlight, or places subject to extremely hot or cold temperatures to ensure that it is used within the specified operating range.
- Places where inflammable gas may be present or in the vicinity of highly inflammable/volatile chemicals or items that can easily catch fire.
- On unstable or sloped surfaces. The machine may topple or cause unforeseen accidents.
- Vicinity of fire exits, fire extinguishers etc that may block/prevent safety measures.

IMPORTANT NOTE:

ALL REPAIRS MUST BE DONE TO ORIGINAL MANUFACTURER SPECIFICATIONS. FAILURE TO DO SO VOID ALL WARRANTIES AND OPERATOR ASSUMES ALL RISKS.

Note: The contents of this manual may be updated without notice.

1. SPECIFICATIONS

Rated power supply: AC110V 50/60Hz; AC220V 50/60Hz

Min. Power consumption: 670W

Max. Power consumption: 1920W

Dimension: H103×W96.4×D67 in

H2622×W2450 ×D1702 mm

Weight: Approximately 1199.31 lb/544 KG

Model No: C-722

Part No.: R134

! NOTICE : After turning off the game, please wait at least 1 minute before restarting again.

Note: Game specifications are subject to change without notice.

2. CONTENTS OF THE ACCESSORY KIT

Open the package and make sure all the items are included:

Following accessories

No.	Part No.	Code No.	Name/SPEC	Picture	Qty
1	R134-1502-00	2.33.01.010020	Power cord 3×16AWG 1.8M		2
2	R134-1503-00	2.19.01.000030B	Fuse Φ5×20mm T10A 250VAC		1
3	R134-1504-00	2.53.00171002	171A key		2

11	R134-1512-00	201.01.100049	Cross recessed pan head screw M4×20		5

NOTE: Part models are subject to change without notice.

3. PART NAME

Key Components

4. SET UP & INSTALLATION

⚠ NOTICE

We do not recommend using power tools as they may cause damage.

⚠ This product is an indoor game machine. Do not install outdoors.

- Refer to IMPORTANT SAFETY INSTRUCTIONS (Pg. 3) for places to avoid.
- Place the unit on a dry level surface.
- Ventilation openings in the back of the unit must not be obstructed by objects or by wall.

4.1 Transporting the Game

If you need to move the game, adjust the levelers back to an “up” position.

⚠ NOTICE

- Be careful not to damage the machine during transport.
- Always unplug the game before moving.
- Keep the machine in upright position during transport.
- For longer distance transport, package the game properly to prevent damages.

4.2 Level Adjustment

Install this game on a flat surface. If the game is installed on an unsuitable floor, it could cause game malfunction.

To secure the game, loosen the nut, utilize wrench to adjust the leveler down until it touches the floor, lifting the casters off the ground by 0.2 in/5mm. Repeat the same for all levelers.

⚠ NOTICE

Make sure the machine is level.

4.3 Play Zone

This machine requires space for playing and for maintenance as shown below.

Leave space around the game upon installation:

Service area: 20 in

NOTICE

Your unit must be leveled to operate properly.

4.4 Machine Installation

Step 1 Remove all the screws as shown below. Remove Seat assembly.

Step 2 Install LOGO marquee to the back bracket.

Name	Hexagon flat head screw
Spec.	M6×16
Qty	5

Step 3 Install marquee to the top of the cabinet.

Name	Cross recessed hexagon bolt set
Spec.	M6×20
Qty	4

Step 4 Install back POP board.

Name	Hexagon screw
Spec.	M4×12
Qty	11

Step 5 Install back decal board.

Name	Cross recessed hexagon bolt set
Spec.	M6×20
Qty	6

Step 6 Install side marquee.

Name	Cross recessed hexagon bolt set
Spec.	M6×20
Qty	6

Step 7 Align Gun panel assembly with the cabinet. Connect the connectors.

Step 8 Open side bottom door. Utilize screws to secure.

Name	Cross recessed hexagon bolt set
Spec.	M8×45
Qty	4

Step 9 Install Side blanking plate. Utilize screws to secure.

Name	L side blanking plate
Qty	1

Name	R side blanking plate
Qty	1

Name	Hexagon screw
Spec.	M4×12
Qty	4

Step 10 Install water proof plate between the gun assy. and cabinet.

Name	water proof plate
Qty	1

Name	Cross recessed pan head screw
Spec.	M4×20
Qty	5

Step 11 Align Gun panel assembly with the cabinet. Connect the connectors

Name	Hexagon flat head screw
Spec.	M6×25
Qty	5

Step 12 Open back door. Add distilled water to the tank about **60L**. (Mind the tank label.)

Step 13 Power on the machine. Open the service door. Press Settings to enter Menu.

Step 14 Select “Gun Calibration”– “P1/2/3/4 gun coordinate calibration” to calibrate gun.

Finish!

4.5 Card Reader Installation Safety Notice

Take precaution to assure that all wiring voltages are confirmed prior to installation of card reader. All warranties are void if not properly installed resulting in logic board damage.

Important: This game is pre-wired to AAMA standards. It is highly recommended to utilize this wiring for Card reader installation.

4.5 Voltage Conversion (110V to 220V)

Notice: 110V Pump needs to be replaced with 220V pump. Please contact **UNIS Service**.

Step 1 Power off the machine. Locate the Power supply.

Step 2 Toggle the Power supply and PC switch to 230V.

Step 3 Open Back door and locate Pump. Unplug and remove 3 pipe (Hold the Blue connector when unplug the pipes.)

Step 2 Utilize 7mm Allen wrench to loosen clamp. Unplug steel pipe as shown below,

Step 3 Loosen 2 screws to remove Water bump. Replace it with 220V bump and install it in reserved order.

Notice: Be sure to insert all 3 pipes firmly.

Finish!

5. HOW TO PLAY

5.1 Insert coin(s), Press gun red button to start.

5.2 aim at target and shoot to win score and energy.

5.3 Press button to use skill when energy is full.

5.4 Avoid enemy shooting and shoot them down.

6. GAME OPTION

7. TROUBLESHOOTINGS

7.1 Common Problem

Please confirm that all connectors fit tightly.

Symptom	Possible Cause	Recommended action
Game will not start	Frame assembly connector is loose.	Check connector.
	Frame assembly fault	Contact with UNIS Service.
Power off	Circuit protector make power SW in off state.	Turn on power SW again. If appeared again and again, machine has anomaly. Please contact with UNIS Service.
Card reader not working	The connector is loose.	Check connector.
	Card reader fault.	Check with card reader manufacturer.
No sound	Low volume	Raise the volume.
	Connector loose.	Check connector.
	Speaker fault.	Check speaker.
	POT installation error.	Install POT correctly.
	POT fault.	Change POT.
	Audio cable problem.	Reconnect the audio cable or change it.
	PC crash.	Restart or system recovery.
	Driver problem	Restart the audio driver.
Display black screen	Check connectors.	Plug in connector tightly
	Display fault.	Utilize another source such as a PC to verify if the display is operational.
	RAM is loose.	Remove and reinsert RAM.
Display blue screen	PC power cord is loose	Check PC power cord whether is loose.
	VGA signal cable is loose.	Check VGA cable
	PC video card is loose.	Reseat video card.
	“0X000000A” code appears. Conflict between computer drive and software.	Contact service

Note: After replacing component from PC (except for RAM), and replacing monitor, the game should be recovered again with the recovery stick attached to the machine.

If you see following error signs showing on the display, please try the recommended action.

Display	Possible Cause	Recommended action
IO board connection failed 	IO board plug is loose.	Reinsert the IO board plug.
	IO board is faulty.	Replace the IO board.
Dongle failed 	Dongle is loose.	Reinsert the dongle.
	Dongle is faulty.	Replace the dongle.
The guns are not calibrated 	P1/2/3 gun is not calibrated	Enter Setting menu to calibrate gun.
Water level low 	No water in the tank	Add water
Water level is too high 	Water level is too high.	Drain water
	Out of tickets	Refill tickets

7.2 System Recovery Operation **(NOTE: Do not disconnect power during this process.)**

1. Turn off the game. Remove the recovery stick from the machine. (Note: This process may take up to 60 minutes) Insert the recovery stick into the port at the back of the computer.
2. Restart PC to enter the system recovery screen as shown.

3. The game will automatically start recovery.
4. Once system recovery is partially finished (as shown below), and the ICON appears, remove the recovery stick from the computer. The game will continue the install process.

OK to remove the recovery stick.

5. Assure that the recovery stick has been properly secured for future use.

WARNING: The recovery stick should only be used to fix software errors. Using it for other purposes may cause unexpected results and damages.

8. MAINTENANCE & INSPECTION

8.1 Safety Check

Check the points listed before operating the machine. These checks are necessary for safe machine operation:

1. Test game before operation each day.
2. Conduct monthly routine checks of game components to ensure good working condition.
3. Check the machine regularly for dust and clean when necessary.

Note: Parts and components require preventative maintenance to maintain proper operation.

8.2 Handling Precautions

When installing or inspecting the machine, be very careful and pay attention to ensure that the player can enjoy the game safely.

Inappropriate handling running counter to the cautionary matters can cause personal injury or damage to the machine.

NOTICE

We do not recommend using power tools as they may cause damage.

8.3 Water Bump Replacement Instructions

Step 1 Power off the machine. Open back bottom door. Unplug and remove 3 pipe (Hold the Blue connector when unplug the pipes.)

Step 2 Utilize 7mm Allen wrench to loosen clamp. Unplug steel pipe as shown below,

Step 3 Loosen 2 screws to remove Water bump. Replace it with new bump and install it in reserved order.

Notice: Be sure to insert all 3 pipes firmly.

Finish!
