Thank you for purchasing **Lane Master Xtreme GMP(Tickets)**. We hope you enjoy the product.

This manual contains valuable information about how to operate and maintain your game machine properly and safely. It is intended for the owner and/or personnel in charge of product operation. Carefully read and understand the instructions.

If you need any help during installation and setup please utilize this manual and troubleshooting guide. If the product fails to function properly, *non-technical personnel should under no circumstance attempt to service the machine*. Contact your distributor or manufacturer for help.

Before use, please read **IMPORTANT SAFETY INSTRUCTIONS**.

IMPORTANT SAFETY INSTRUCTIONS

To ensure the safe usage of this product, carefully read and understand these instructions before operating your game.

Save these instructions for future reference.

Use this product only as described in this manual. Other uses not recommended may cause fire, electric shock or personal injury. Unplug the game from the outlet when not in use, when moving from one location to another, and before cleaning/servicing.

Explanations which require special attention are indicated by signs of warning. Depending on the potential hazardous degree, the terms: **NOTE**, **NOTICE**, and **WARNING** are used.

NOTE: A NOTE indicates useful hints or information about product usage.

NOTICE: A NOTICE indicates potential damage to product and how to avoid the problem.

WARNING: A WARNING indicates a potential for product damage or serious personal injury.

It is important to understand the meaning of the following HAZARD SIGNS before continuing:

High Voltage and Shock Hazard:

High voltage can cause electric shock.

Turn off/unplug power before servicing.

High Temperature Hazard:

This part may cause scalding.

Do not touch. Surface may be hot.

No Touching Hazard:

This part may be hot or can cause electric shock.

Do not touch.

Use the following safety guidelines to help ensure your own personal safety and to help protect your equipment and surrounding environment from potential damage.

⚠️ This product is an indoor game machine. Do not install outdoors.

Avoid installing in the following places to prevent fire, electric shock, injury and/or machine malfunctioning:

- Places subject to rain/moisture, or places subject to high humidity.
- Places subject to direct sunlight, or places subject to extremely hot or cold temperatures to ensure that it is used within the specified operating range.
- Places where inflammable gas may be present or in the vicinity of highly inflammable/volatile chemicals or items that can easily catch fire.
- On unstable or sloped surfaces. The machine may topple or cause unforeseen accidents.
- Vicinity of fire exits, fire extinguishers etc that may block/prevent safety measures.

IMPORTANT NOTE:

ALL REPAIRS MUST BE DONE TO ORIGINAL MANUFACTURER SPECIFICATIONS. FAILURE TO DO SO VOID ALL WARRANTIES AND OPERATOR ASSUMES ALL RISKS.

Note: The contents of this manual may be updated without notice.

1. SPECIFICATIONS

Rated power supply: AC110V 50/60Hz; AC220V 50/60Hz;

Min. Power consumption: 550W

Max. Power consumption: 700W

Dimension: H105.41×W65.19×D112.96 in

H2677.6×W1656 ×D2869.4 mm

Weight: Approximately 1212.54 lb/550 KG

Model No: C-793

Part No.: L130

 **NOTICE** : After turning off the game, please wait at least 1 minute before restarting again.

Note: Game specifications are subject to change without notice.

This machine will be divided into two parts during transportation.

Back Cabinet: H82.27×W65.19×D26.39 in

H2089.8×W1656×D669.3 mm

Ally part: H52.32×W65.19×D88.14 in

H1329×W1656×D2239 mm

Note: Game specifications are subject to change without notice.

2. CONTENTS OF THE ACCESSORY KIT

Open the package and make sure all the items are included:

1. Following accessories

No.	Part No.	Code No.	Name	Qty	Picture
1	L130-3401-00	2.53.00171002	171A key	2

3. PART NAME

Key Components

4. SET UP & INSTALLATION

⚠ NOTICE

We do not recommend using power tools as they may cause damage.

⚠ This product is an indoor game machine. Do not install outdoors.

- Refer to IMPORTANT SAFETY INSTRUCTIONS (Pg. 3) for places to avoid.
- Place the unit on a dry level surface.
- Ventilation openings in the back of the unit must not be obstructed by objects or by wall.

4.1 Transporting the Game

If you need to move the game, adjust the levelers back to an “up” position.

⚠ NOTICE

- Be careful not to damage the machine during transport.
- Always unplug the game before moving.
- Keep the machine in upright position during transport.
- For longer distance transport, package the game properly to prevent damages.

4.2 Level Adjustment

Install this game on a flat surface. If the game is installed on an unsuitable floor, it could cause game malfunction.

To secure the game, loosen the nut, utilize wrench to adjust the leveler down until it touches the floor, lifting the casters off the ground by 0.2 in/5mm. Repeat the same for all levelers.

⚠ NOTICE

Make sure the machine is level.

4.3 Play Zone

This machine requires space for playing and for maintenance as shown below.

Leave space around the game upon installation:

Service area: 20 in

NOTICE

Your unit must be leveled to operate properly.

4.4 Machine Installation

Before processing with assembly assure you have the following tools.

No.	Name	Picture	Use for
1	Phillips screwdriver		For Marquee Installation& Connect Lane Assembly
2	Wrench		
3	Allen hexagon wrenches		Connect Lane Assembly & Display Assembly

Installation Instructions

Step 1 Place the 2 Lane Assemblies together.

Step 2 Open the coin door and the ticket door to bolt the lanes together utilizing the hardware indicated by the red arrows.

No.	Name	Picture	Qty
1	Cross recessed hexagon screw		8
	C flat washer		8

Step 3 Open the back plate and attach the screws in the red arrow area.

Step 4 Install Bowling light cover.

Step 5 Align Monitor cabinet with the Lane assy.

Use the Allen hexagon wrench (Provided) to lock the back box with the lanes as indicated.

**Step 6 Lower leg levelers into place for initial leveling of the back box and the lanes if the floor is uneven.****Step 7 Lift the marquee into place and attach to the bracket. Install hardware where indicated by the red arrows.**

Step 8 Attach support bracket.

Note: It is recommended to have the minimum of two staff members available for this installation.

Step 9 Install the bolts as indicated in the green area.

Kit list:

No.	Name	Picture	Qty
1	Cross recessed hexagon bolt set		8
2	Fixed connected rod		2

Step 10 Add ball to each lane and apply power.

Step 11 Once game is powered on and operational place it in position. Utilizing the leg levelers to assure the back box and lanes are level with each other.

Finish!

4.5 Card Reader Installation Safety Notice

 Take precaution to assure that all wiring voltages are confirmed prior to installation of card reader. All warranties are void if not properly installed resulting in logic board damage.

Important: This game is pre-wired to AAMA standards. It is highly recommended to utilize this wiring for Card reader installation.

4.6 Voltage Conversion

Step 1 Power off the machine. Locate the Power supply.

Step 2 Toggle the Power supply and PC switch to 115V or 230V according to your need.

Step 3 Locate Power box. Replace fuse to T10A.

Step 4 Locate lane side. Utilize key to open side door,

Step 5 Loosen swing screw. Unplug the connectors and take Send ball assembly out.

Step 6 Loosen hexagon screw as shown below.

Step 7 Loosen 4 screws to remove motor set.

Step 8 Loosen 4 screws to remove motor .

Step 9 Replace it with new motor(suitable voltage) and install in reversed order.

5. HOW TO PLAY

5.1 Insert coins/tap/swipe card to play.

Roll the ball down to the lane and hit pins to get points.

5.2 Hit Power Up pins to get Power ups!

5.3 Power ups are automatically activated. Try them all!

5.4 Hits as many pins as possible! Strikes earn bonus points!.

7. TROUBLESHOOTINGS

7.1 Common Problem

Please confirm that all connectors fit tightly.

Symptom	Possible Cause	Recommended action
Game will not start	Frame assembly connector is loose.	Check connector.
	Frame assembly fault	Contact with UNIS Service.
Power off	Circuit protector make power SW in off state.	Turn on power SW again. If appeared again and again, machine has anomaly. Please contact with UNIS Service.
Card reader not working	The connector is loose.	Check connector.
	Card reader fault.	Check with card reader manufacturer.
No ticket dispensing	Out of ticket.	Add ticket and press reset button
	Ticket jamming.	Remove the jammed tickets and press reset button.
	The connector is loose.	Plug the connector tightly.
No sound	Low volume	Raise the volume.
	Connector loose.	Check connector.
	Speaker fault.	Check speaker.
	POT installation error.	Install POT correctly.
	POT fault.	Change POT.
	Audio cable problem.	Reconnect the audio cable or change it.

If you see following error signs showing on the display, please try the recommended action.

Display	Possible Cause	Recommended action
	The connection part of the IO board and PC are loose.	Check and reconnect the loose ports of the PC or IO board.
	Cable quality problem	Change the cable after checking the connection between IO board and PC.
	Cable became loose during transportation.	Check and reconnect the loose cables of the PC or IO board.
	IO board is faulty.	Reboot the game after checking U disk connection and cable problem, if the problem remains unresolved, please call the service department for assistance.
	Out of ticket.	Refill ticket
	Loose connection of the ticket dispenser's cables.	Check and reconnect the loose cables to the ticket dispenser.
	Ticket dispenser is faulty.	Change the ticket dispenser.
	Ticket jam.	Remove jammed tickets.
	Out of ticket.	Refill tickets and press reset button.
	Loose connection of the send ball assembly.	Check and reconnect the loose cables of send ball assembly.
	Send ball assembly is broken.	Check the connection, if the problem remains unresolved, please call the service department for assistance.

Display	Possible Cause	Recommended action
 SENSOR ERROR	Loose connection to the	Loose connection to the
	sensor's cables.	sensor's cables.
	Check and reconnect the	Check and reconnect the
 NO BALL FOUND	No ball found inside the lane.	Roll a ball to the lane.
	Sensor problem.	Change the sensor after checking the connection.
 NETWORK ERROR, PLEASE CHECK BELOW: 1. CHECK IF PC LINK NUMBER IS SET CORRECTLY IN CUSTOMIZED SETTING. 2. CHECK IF NETWORK PORT AND NETWORK CABLE OPERATED PROPERLY. 3. CHECK IF CONNECTED MACHINES ARE POWERED UP PROPERLY.	Wrong PC Number	Set the unique PC Number for each machine.
	Bad connection of the network port or cable.	Check if the network port is lighting or replace the network cable light.
	Switch or network problem	Check the power of the switch or replace the switch. Make sure the internet connection is available.
 POWER BALL ERROR POWER BALL OWED:	No power ball	Refill power ball to the hopper.
	Power ball jam.	Remove jammed balls.
	Loose connection of the Hopper cables.	Check and reconnect the loose cables to the Hopper.
	Hopper is faulty.	Replace hopper
 POWER BALL ERROR CALL ATTENDANT POWER BALL OWED:	No power ball	Refill power ball to the hopper.

7.2 System Recovery Operation **(NOTE: Do not disconnect power during this process.)**

1. Turn off the game. Remove recovery stick from the machine. (Note: This process may take up to 60 minutes) Insert the recovery stick into the port at the back of the computer.
2. Restart PC to enter the system recovery screen as shown.

3. The game will automatically start recovery.
4. Once system recovery is partially finished (as shown below), and the ICON appears, remove the recovery stick from the computer. The game will continue the install process.

OK to remove the recovery stick.

5. Assure that the recovery stick has been properly secured for future use.

WARNING: The recovery stick should only be used to fix software errors. Using it for other purposes may cause unexpected results and damages.

8. MAINTENANCE & INSPECTION

8.1 Safety Check

Check the points listed before operating the machine. These checks are necessary for safe machine operation:

1. Test game before operation each day.
2. Conduct monthly routine checks of game components to ensure good working condition.
3. Check the machine regularly for dust and clean when necessary.

Note: Parts and components require preventative maintenance to maintain proper operation.

8.2 Handling Precautions

When installing or inspecting the machine, be very careful and pay attention to ensure that the player can enjoy the game safely.

Inappropriate handling running counter to the cautionary matters can cause personal injury or damage to the machine.

NOTICE

We do not recommend using power tools as they may cause damage.

8.3 Linking setting

Kits for linking

No	Name	Qty	Picture	Note
1	Network cable(5M)	3		For two sets linking
2	Switch	1		For three sets linking

For two sets linking:

Step 1 For two sets linking, please connect the network ports of two machines with Network cable(5M).

Step 2 Please make sure the software is the same between 2 machines.

Step 3 Enter into Setting menu

→Customized setting

→PC Number

Machine	PC Num
A	1
B	2

Step 4 Enter into Setting menu

→Customized setting

→Play mode

→**4 lanes linking**

Machine	Play mode
A	4 lanes linking
B	4 lanes linking

Finish !

For three sets linking:

Step 1 For three sets linking, please connect the Network cable (5M) to the network port on the power outlet.

Step 3 Please make sure the software is the same between 3 machines.

Step 4 Enter into Setting menu

→Customized setting

→PC Number

Machine	PC Num
A	1
B	2
C	3

Step 2 For three machines linking, please connect all the network cables (5M) to the switch and plug in the power cord.(Switch provided by user)

Step 5 Enter into Setting menu

→Customized setting

→Play mode

→**6 lanes linking**

Machine	Play mode
A	6 lanes linking
B	6 lanes linking
C	6 lanes linking

Finish !

Display signal for reference:

	NETWORK ERROR, PLEASE CHECK THE FOLLOWING.... 1. CHECK PC NUMBER IS SET IN CUSTOMIZED SETTING. 2. CHECK NETWORK PORT AND NETWORK CABLE IS OPERATED PROPERLY. 3. CHECK CONNECTED MACHINES ARE POWERED UP PROPERLY
	CONNECTION IS SUCCESSFUL
